THE TRIMBLE GEDO CE SYSTEM
Trimble GEDO CE is a suite of tools for measurement, recording, analysis and applications for railway track location, construction and maintenance. Specially tailored for railway tasks and processes, Trimble GEDO CE hardware and software streamlines work in the field and office. The system uses standard techniques and data formats to share information with leading applications for railway track design and maintenance.

TOOLS FOR SLAB TRACK CONSTRUCTION AND ADJUSTMENT
Trimble GEDO CE Trolley
A single operator can quickly and safely capture information to document existing track. Positioning is supplied by Trimble GNSS Receivers or Trimble S-Series Total Stations. The trolley is easily removed to stay clear of railway operations.

Trimble GEDO Office
Software for preparing alignments. Supports standard formats for data exchange with external systems.

Trimble GEDO Track
Field software optimized for slab track construction, adjustment and verification. GEDO Track runs on the Trimble TSC3 Controller.

Trimble GEDO Calc
Processing, analysis and review of field data and prepare documentation of the construction and final position.

Trimble Profiler GEDO CE 2.0
Laser measurement unit to measure object close to the track, As-Built survey, platform gauging and clearance check. The measurement can be taken relative according to the track position or by using total station or GNSS absolute coordinates can be measured additionally.

KEY BENEFITS
Reduce construction time and costs with immediate comparison of measured data to design
Verify track geometry with accuracy and confidence. Precise optical positioning and a simple, self-contained trolley provide flexibility and reliable results
Capture track 3D coordinates, gauge and cant in a single operation
Import alignment design from digital or paper plans. Check design information before it goes to the job site
Reduce time for documentation and acceptance. Capture adjustment and track acceptance data and quickly prepare reports for contractors and quality inspection
Support for industry standard calculations including FAKOP® widening
Satisfy reporting requirements with graphical and list form output of corrections for side and height correction plates

GEDO CE 2.0:
FOR SLAB TRACK
Constructing slab track calls for fast, precise measurements and immediate feedback. Trimble GEDO CE is a simple, integrated system to measure for precise adjustments, inspections and quality checks. In one operation, the Trimble GEDO CE captures the 3D coordinates of the track, together with gauge and cant. The information is compared to the design, and offsets and correction values are displayed in the field, where work crews make the necessary adjustments. With its precision measurement systems, Trimble GEDO CE is suitable for conventional and high-speed rail construction.
GENERAL
Application: Track adjustment for slab track construction-based on railbounded systems
Track documentation and acceptance for all slab track types
High speed railways, trams, metros, industrial railways, turnouts

Performance: 200 m to 400 m/day for adjustment
>100 meters/hour for documentation and acceptance

Update rate: 1 Hz
Inner system accuracy: ±0.3 mm
Position accuracy: <1 mm
Supported positioning sensors: Trimble S6 Total Station

TRIMBLE GEDO CE 2.0 TRACK MEASURING
Description: Track-mounted trolley
Gauge: 1000 mm, 1067 mm, 1435 mm, 1520 mm, 1600 mm, 1668 mm
Other gauges on request

Gauge measurement
Range: -20 mm to +60 mm
Accuracy: ±0.3 mm

Cant measurement
Range: ±10° or ±265 mm
Accuracy: ±0.5 mm (static)

Weight: 16.0 kg

Battery life
Type: Trimble S-Series Li-Ion, rechargeable
Life: 6–8 hours

TRIMBLE TSC3 CONTROLLER
Operating system: Windows® Embedded Handheld 6.5 Professional
Operation: Touchscreen, Keyboard
Interfaces: USB, RS232, Bluetooth®, WiFi (802.11b/g)
Environmental Protection: IP67; MIL-STD-810G
Temperature range: -30 °C to +60 °C
Weight: 1.04 kg
Battery
Type: 28.9 Wh Li-Ion
Life: 34 hours

TRIMBLE PROFILER GEDO CE 2.0
Weight: 3.5 kg
Measurement range: 0.3 m to 30 m
Typical accuracy for distance measurement: ±1.5 mm

Specifications subject to change without notice.
